

JUNIOR FULL STACK LAMP WEB DEVELOPER

Job Description

Join the Amplus Marketing + Design Team

Amplus Marketing + Design is a Vancouver-based boutique web agency that specializes in all media and website design, multilingual websites and customized web solutions. We are a collaborative team of savvy strategists, web designers and developers that drive our culture of innovation and inspired solutions that advance our clients' mission. We are looking for an exceptional, motivated **Junior Full Stack LAMP Web Developer** to join our team and to contribute in the building of top quality web related things for our clients.

What's in it for you? At Amplus, we understand that our success comes from the people we hire so from day one, each member of our team is provided with training, mentoring, and tools that will assist in their personal and professional development. Our team thrives in an innovative and collaborative culture that celebrates our successes. Lastly, compensation includes sick days, paid holidays and vacation, health benefits and bonuses. If you want to join a growing and dynamic company that rewards personal achievements and challenges you to grow, **THIS IS THE PLACE FOR YOU!**

Your success will be achieved by:

- Developing websites, prototypes, and applications using the latest front-end & back-end technologies
- Achieving the best possible results in web projects from conception right through to delivery under the guidance of the Full Stack LAMP Web Developer
- Providing timely resolution to reported problems to Project Manager
- Integrating data from various back-end services and databases
- Developing and improving continuous release and testing processes
- Delivering exceptional service to our clients through a high standard of quality
- *While (skill < PHP_INT_MAX) learning++;*

Who you are:
