

FULL STACK (LAMP) SENIOR WEB DEVELOPER

Job Description

Join the Amplus Marketing + Design Team

Amplus Marketing + Design is a Vancouver-based boutique web agency that specializes in all media and website design, multilingual websites and customized web solutions. We are a collaborative team of savvy strategists, web designers and developers that drive our culture of innovation and inspired solutions that advance our clients' mission. We are looking for an exceptional, motivated **Full Stack Senior Web Developer** to join our team and to contribute in the building of top quality **web related things** for our clients.

What's in it for you? At Amplus, we understand that our success comes from the people we hire so from day one, each member of our team is provided with training, mentoring, and tools that will assist in their personal and professional development. Our team thrives in an innovative and collaborative culture that celebrates our successes. Lastly, compensation includes sick days, paid holidays and vacation, health benefits and bonuses after the first year. If you want to join a growing and dynamic company that rewards personal achievements and challenges you to grow, **THIS IS THE PLACE FOR YOU!**

Your success will be achieved by:

- Developing websites, prototypes, and applications using the latest front-end & back-end technologies
- Collaborating with Project Manager and Web Designer to achieve the best possible results in web projects from conception right through to delivery
- Strong organizational skills to manage multiple tasks, meeting timelines, budget and high production
- Proactively diagnosing problems, self-driven, capable of defining own design and test scenarios
- *While (skill < PHP_INT_MAX) learning++;*

Who you are:

- Must-Have Requirements
 - Five or more years of Web Development experience – minimum 4 years in full stack
 - Bachelor's Degree or higher in Computer Science or equivalent at a North American Post-Secondary
 - Fluent in written and verbal English and Chinese (Mandarin or Cantonese).
 - Is a local resident or is willing to relocate
- Skill Requirements
 - Programming
 - Mastery of PHP and one or more MVC PHP Frameworks (ie. PhalconPHP, Laravel)
 - Mastery of MySQL relational database
 - Mastery of WordPress as a platform for custom development using the best practices
 - Mastery of HTML5, CSS3/SASS, Vanilla Javascript / jQuery
 - Proficient in Bootstrap, AngularJS / ReactJS
 - Proficient in web animations (GreenSock, jQuery, CSS keyframes)
 - Server
 - Proficient in Linux server administration
 - Proficient in AWS ecosystem (ie. EC2, RDS)
 - Proficient in Cloudlinux, cPanel administration
 - Mastery of HTTP and REST
 - Resource management, load balancing, application caching
- Proven Experiences and Knowledge
 - Web application architecture (SAAS application experience is asset)
 - Experience creating multilingual sites
 - Version control (ie. GIT, bitbucket)
 - Proficient with Adobe Photoshop
 - Eye for UI / UX effectiveness
 - Performance optimization for modern applications and browsers
 - Ensuring cross-browser compatibility across a variety of supported browsers
